Day by day

■ DAY 1

Santiago, Chile

Arrive in Santiago, Chile's mountainous capital. Transfer to the Ritz-Carlton (or similar).

Arrival Time: Arrive by 4:00 p.m. local time.

Arrival City: Puerto Montt, Chile

◇ DAY 2

Punta Arenas / Embark Ship

Join the recommended flight from Santiago to Punta Arenas, Chile's southern gateway to Patagonia; transfers to the airport and luggage assistance will be provided. Transfer to the harbor to embark the *National Geographic Resolution*.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Tierra del Fuego: Karukinka Natural Park

Tierra del Fuego is one of Patagonia's crown jewels, and Karukinka Natural Park sits right in the heart of this breathtaking wilderness. Established in 2004 through a gift from Goldman Sachs, Karukinka is one of the largest donations ever made for conservation. With special permission from the Wildlife Conservation Society, visit this private reserve, which spans 1,160 square miles and harbors the endangered culpeo fox, Andean condors and many other kinds of wildlife. Explore Jackson Bay, backed by a skyline of rugged mountains, and look for wildlife—from the black-browed albatrosses that nest on a small nearby island to elephant seals, which you may spot on the beach, in grass meadows and even in the small river draining the valley inland.

Meals included: breakfast, lunch, dinner

◇ DAYS 4-5

Chilean Fjords / Beagle Channel

Sail the historic Beagle Channel through a vast and pristine region of soaring, snowcapped mountains, gigantic glaciers, thousands of verdant islands, serene lakes and waterfalls. Wind through the fjords, getting up close to a number of different glaciers, and stopping along the way to Zodiac cruise or kayak in protected waters. Hike the rugged shores where the blue and white ice contrasts with the verdant forest and bright flowering plants. Look out for Andean condors, albatrosses, grebes, petrels, fulmars, shearwaters and many other birds that inhabit this otherworldly realm.

Meals included: breakfast, lunch, dinner

◇ DAYS 6-8

Kirke Narrows / Puerto Natales / Torres del Paine National Park / White Narrows

After a thrilling navigation through the Kirke Narrows, arrive in Puerto Natales. From there, drive to monumental Torres del Paine National Park, a UNESCO Biosphere Reserve famed for its jagged, granite mountains topped with a thick layer of dark slate. One of the most spectacular and wildlife-rich areas in the Americas, this stunning park shelters an array of fascinating creatures, from Andean condors and flamingos to rhea and puma, throughout its 450,000 acres of glaciers, forests, grasslands, rivers and vibrant lagoons. Explore among the jaw-dropping scenery on exceptional hikes and walks through this world-famous national park, taking in the dramatic granite peaks and diverse wildlife.

Meals included: breakfast, lunch, dinner

◇ DAYS 9-12

Inland Passage / Chilean Fjords

This vast region of incomparable scenery is seemingly untouched by humans except for a few fishing villages perched at “the end of the world.” Over the next few days, you’ll have multiple opportunities to hike, Zodiac cruise and kayak among snowcapped mountains, thousands of islands covered with forests, lakes, soaring granite walls and waterfalls.

One of the many highlights is the Pio XI Glacier, the longest glacier in the southern hemisphere outside of Antarctica, running some 60 miles from the Patagonia icefield to the fjord, where it noisily calves off gigantic ice masses at a rate of one every several minutes. Get up close to this impressive natural wonder on Zodiac rides.

Meals included: breakfast, lunch, dinner

◇ DAY 13

Aysén / Coyhaique / Andes Mountains

Today, choose from two options. Take a morning excursion to Aiken del Sur, a privately owned park set in a beautiful evergreen forest with lovely lakes and waterfalls, including a 75-foot-high cascade. As you walk the well-maintained trails, keep an eye out for ringed kingfishers, woodpeckers and a variety of forest birds. Cap off the walk with a Patagonian lamb barbecue (with vegetarian options) and entertainment by local musicians.

Alternatively, take a full-day excursion to the Coyhaique National Reserve, driving up into a scenic valley nestled in the Andes, with views of the snow-covered peaks. The starting point for the day’s hike is Laguna Verde, “Green Lake,” which you’ll reach after passing through evergreen forest full of giant rhubarb and ferns into the transition zone of deciduous *Nothofagus* forest. An array

of animals can be found here, including three Chilean woodpecker species, passerines, diurnal and nocturnal predatory birds, pumas and foxes. After the hike, enjoy a picnic lunch followed by time in the city of Coyhaique to see its central plaza and artisans’ stalls.

Meals included: breakfast, lunch, dinner

◇ DAY 14

Tantauco Park

Located in the wildest and most remote territory of the Great Island of the Chiloé Archipelago, Tantauco Park is made up of evergreen forests, millennial cypress groves, bog plains from the last glacial period and imposing lakes and rivers. A formidable diversity of flora and fauna, including many endangered species, are concentrated within, and the park has been declared one of the 36 key sites of biodiversity on Earth, as well as a priority conservation spot in Chile. You will have a choice of walks or hikes through the forests with your naturalist guides and an opportunity to visit the museum and information center to learn more about the history, ecology and conservation work in this remote and rugged region.

Meals included: breakfast, lunch, dinner

◇ DAY 15

Castro (Chiloé Island)

Spend the day exploring Chiloé Island, which is known for its unique *palafitos*, colorful fishermen’s houses precariously built on stilts along the water’s edge, as well as its wooden churches, collectively designated a UNESCO World Heritage Site. The town of Castro has shops and a large open-air market where the Chileans show their wares, such as alpaca sweaters and lapis jewelry. You may choose a trip to Chiloé National Park to see its forests, wetlands and wildlife, with a selection of longer or shorter walks. Alternatively, visit some of the welcoming small communities that dot the

countryside and learn about their traditional rural way of life.

Meals included: breakfast, lunch, dinner

◇ DAY 16

Pumalín Douglas Tompkins National Park

Spanning 750,000 protected acres in Chilean Patagonia, Pumalín National Park is one of the last areas where the unusual alerce forest remains. These huge trees compare in size and age to California redwoods, with some specimens reaching 2,000 years old. The Pumalín Project was established in 1995 by the late American conservationist Doug Tompkins, who wanted to preserve some of the remaining virgin forest in Chile. Walk through the forest with naturalists, visit a hidden waterfall or climb along a rushing stream and look for forest birds along the trail. In the afternoon, head for the Golfo de Corcovado in search of Magellanic penguins, sooty shearwaters, dolphins and, with luck, whales.

Meals included: breakfast, lunch, dinner

■ DAY 17

Puerto Montt / Disembark Ship / Santiago

Disembark in Puerto Montt, where you'll have some free time to explore before proceeding to the airport for your flight to Santiago and return flights home.

Departure Time: Depart after 6:00 p.m. local time.

Departure City: Santiago, Chile

Meals included: breakfast

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook. A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Resolution's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside – with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
