Day by day

■ DAY 1

Copenhagen, Denmark / Embark Ship

Arrive in Copenhagen and transfer to the city center. Known for its walkable, colorful streets and charming canals, experience the city at your own pace before embarking the ship this afternoon.

Meals included: dinner

◇ DAY 2

North Zealand

Arrive in North Zealand today, known for its windswept coast lined with sand dunes, quaint villages and a refuge for the Danish Royal Family. Take advantage of the many options along the northern coast, including a visit to Knud Rasmussen's summer home looking out over the North Sea towards his beloved Greenland. Alternatively, venture out into the water on a seaweed safari, learning about the over 30 species of seaweed and their uses or walk the halls of historic Fredericksborg Castle, the largest in the Nordic region, dating from the 1600s.

Meals included: breakfast, lunch, dinner

◇ DAYS 3-4

Kosterhavet National Park, Sweden

Comprising 150 square miles around the islands in the Koster archipelago, Kosterhavet National Park is the first National Marine Park in Sweden. It contains over 6,000 marine species—including 200 that cannot be found anywhere else in Sweden, like the cold-water coral *Lophelia pertus*—and one of the country's two coral reefs. Spend two days island hopping, kayaking, and hiking as you experience the natural beauty of this archipelago.

Meals included: breakfast, lunch, dinner

◇ DAY 5

Mandal, Norway

Considered by many to be one of the prettiest villages in all of Norway, Mandal sits at the far southern tip of the country. Perched in a harbor and surrounded by whitewashed buildings, this coastal village is the oldest market town in the region, dating back to the 1500s. Beyond its trade history, Mandal is known for its local artists and its vast natural beauty. Stroll Sjøsandene, one of Norway's best beaches, and tour the birthplace of Gustav Vigeland, one of Norway's greatest artists, at the Vigeland house.

Meals included: breakfast, lunch, dinner

◇ DAY 6

At Sea

Sail across the North Sea to Scotland. These waters have been a connecting route between Norse Kingdoms and Shetland as far back as the ninth century. Enjoy the day on board to edit photos or attend a presentation about the region with one of your naturalists. Schedule a massage with the wellness specialist or spend time on the observation deck as you watch for the migrating wildlife that call this region home.

Meals included: breakfast, lunch, dinner

◇ DAY 7

Coast of Moray Firth, Scotland

Sail to Moray Firth, a quiet triangular inlet in northeast Scotland. Sitting within the North Sea, it has a multitude of rivers and smaller inlets feeding into its basin. The River Spey—the second longest river in Scotland—runs through its interior out to its

coastline. Known for its purity and natural beauty, the water has given rise to vibrant marine life, like bottlenose dolphins and wild salmon, coastal boatbuilding traditions and an iconic whisky trail in the valleys along its path.

Meals included: breakfast, lunch, dinner

■ DAY 8

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
