Day by day

■ DAY 1

Stockholm, Sweden / Embark Ship

Arrive in Stockholm and transfer to the city center. As the largest city in Scandinavia, the city offers a dynamic blend of culture, architecture and history. Spend the day at your own pace taking in this world capital throughout the ages before embarking the ship this afternoon.

Meals included: dinner

◊ DAY 2

Stockholm Archipelago

This morning, wake up next to Gamla Stan, Stockholm's oldest district as you take advantage of the city's highlights and walk among the cobblestone streets, along the surrounding canals or through the numerous public parks. Visit the Vasa Museum which houses the world's only preserved 17th century ship and hear from experts about its sister ship which was recently discovered in the Baltic Sea. This afternoon, enjoy one of the most iconic Scandinavian sailings as you navigate the Stockholm archipelago or "skärgården," watching local ferries crisscross the waterways and photographing the quaint cottages that line the shores.

Meals included: breakfast, lunch, dinner

◊ DAYS 3-4

Finnish Archipelago

The Finnish Archipelago, comprising more than 6,700 islands, is known for its slower pace, strong ties to the sea and independent nature. Discover the Åland Islands, a fascinating autonomous region, as you explore from its capital of Mariehamn to the outer island of Utö. Visit remote lighthouses perched on red granite islands; navigate through coves and

islands on Zodiacs and kayaks; explore the decks of the *Pommern*, a four-masted barque and one of the last of the Flying P-Liners; and walk Mariehamn's city streets to see why it's referred to as "the town of a thousand Linden trees."

Meals included: breakfast, lunch, dinner

◊ DAY 5

Visby, Gotland

A former Viking site on the island of Gotland, the UNESCO-designated city of Visby is one of the best-preserved medieval cities in Scandinavia. Its history as a part of the Hanseatic League can still be witnessed in its two-mile-long city wall, cobblestone streets and stone houses. Outside its walls, Gotland lures travelers with its rich history, striking nature and a growing reputation for local crafts and goods. Spend the day exploring the island or follow the local lifestyle of slowing down and enjoying the rhythm of the Baltic Sea.

Meals included: breakfast, lunch, dinner

◊ DAY 6

Stora Karlsö

The second oldest nature reserve in the world after Yellowstone National Park, Stora Karlsö is a nature lovers' paradise. Composed of fossilized coral reefs formed over 400 million years ago, the scenery is one of the main draws of this "rock" in the middle of the Baltic Sea. It's home to the biggest bird cliffs in the Baltic, which teem with colonies of breeding guillemots and razorbills, and it's carpeted with an array of dazzling flowers, depending on the season. You'll be guided through this rich diversity by your naturalists as well as by the Reserve Rangers.

Meals included: breakfast, lunch, dinner

◊ DAY 7

Bornholm, Denmark

Arrive at the island of Bornholm, a Danish island located in the Baltic Sea between Sweden and Germany. Known for its local makers and crafters, Bornholm offers a relaxing atmosphere. The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
