Day by day

■ DAY 1

Dublin, Ireland / Embark Ship

Arrive in Dublin and transfer from the airport to the city center. More living museum than city, traces of Dublin's past are on display at every turn with medieval castles, cathedrals and one of the oldest universities in Europe: Trinity College. Experience the city at your own pace before embarking the ship this afternoon.

Meals included: dinner

◇ DAY 2

Rathlin Island, Northern Ireland

Start your expedition on Rathlin Island, home of Northern Ireland's largest puffin colony, perched precariously on seaside cliffs. It is also home to thousands of seabirds, including guillemots, razorbills, kittiwakes and fulmars. Take the shuttle up to the cliffs and home to the Rathlin West Light, the "upside down lighthouse", built between 1912 and 1917. From here you can peer over the cliffs and observe the seabirds that call these dramatic drops home. After getting your fill of the cliffs and panoramic sea views, hike along the country lane back to the harbor and witness daily island life around you.

Meals included: breakfast, lunch, dinner

◇ DAYS 3-4

Isle of Skye, Scotland / Loch Ewe

Sail through the Sea of the Hebrides to the Isle of Skye, known for its rugged landscapes, picturesque fishing villages and medieval castles. Enjoy an expedition day along its coast, exploring inlets and villages that this region is known for—and possibly a wee dram of the local libations.

The next day, move further up the coast to Loch Ewe, inhabited over the centuries by crofting villages and used as a gathering point for maritime trade and military convoys. Today, one of the best known highlights of the Loch is Inverewe Gardens, initially curated by a private land owner and currently looked after by the National Trust of Scotland. Enjoy a relaxed morning amongst the gardeners tending the early season beds, while keeping an eye out for the Scottish Big Five of red squirrel, red deer, otter, seal and golden eagle that call this area of the world home.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-7

Shetland and Orkney Islands

Rounding the most northern region of the United Kingdom, spend the next three days winding your way south through the Shetland and Orkney Islands. The Shetland Islands are comprised of 16 individual islands and offer the chance to delve into their Viking and Norwegian roots, as well as their farming cultural on the edge of the ocean.

The Orkney Islands offer their own highlights, including the capital of Kirkwall and the famed harbor of Scapa Flow. Your expedition team will make the most of these days by calling at remote piers and beaches by Zodiac. Explore ancient brochs overlooking the North Sea and hike across island trails.

Meals included: breakfast, lunch, dinner

■ DAY 8

Edinburgh / Disembark Ship

Disembark in Edinburgh and transfer to the airport for flights home.

Meals included: breakfast

Eastbound

Dublin, Ireland → Edinburgh, Scotland

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
