- ★ Explore remote Ellesmere Island and the North Polynya, on the lookout for polar bears, ringed seals, belugas and the elusive narwhal

Day by day

■ DAY 1

Reykjavík, Iceland

Arrive in Reykjavík, the world's northernmost capital, which lies just below the Arctic Circle. Transfer from the airport to the city and spend the day exploring at your own pace. Check in with the hospitality desk this afternoon to make final arrangements before your charter flight the following day.

◇ DAY 2

Nuuk, Greenland

Fly from Reykjavík on the recommended flight to Nuuk, Greenland's capital thriving capital city. Settle into your cabin and enjoy a scenic sailing out of the Nuuk fjord and into the open water of the Davis Strait, as the ship navigates north along the coastline.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Greenland's West Coast and Sisimiut

Upon arrival to Sisimiut, a former whaling port, enjoy your choice of guided walks through the sights and sounds of the village, including Dog Town or Sallinnguit, a small island with centuries of history from Inuit culture through colonization and current day industry. In your free time, enjoy a local food tasting, visit the open-air museum or explore the local artisan workshops.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Disko Bay

Sail into Qeqertarsuup Tunua, also known as Disko Bay, and be welcomed by floating icebergs calved off the world's most active glacier, Sermeq Kujalleq.

On Disko Island, the second largest in Baffin Bay, enjoy a day of expedition activities as conditions permit, including backcountry hiking, photo walks and naturalist led botany walks. This evening, sail away from the Greenlandic Coast and venture to the west and the Canadian Arctic.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-11

Shores of the Northwest Passage

The Northwest Passage begins in the Davis Strait between Greenland and Canada. Your exploration takes you along the beautiful bays and inlets of Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage.

As you continue your exploration into Lancaster Sound, days are spent searching for ringed seals, arctic foxes, walruses and polar bears, as well as beluga and bowhead whales. Visit Devon Island and take a walk with the ship's archaeologist to learn about the Thule people—ancestors of the modern Inuit—that once inhabited this region.

Meals included: breakfast, lunch, dinner

◇ DAYS 12-16

Exploring the Queen Elizabeth Islands

Explore the ice-laden channels and glacier-carved islands that stretch for hundreds of miles—a stunning display of raw geology. Take your cues from nature in the High Arctic Archipelago: following wildlife, stopping for hikes on the tundra, dropping anchor

in a beautiful fjord or an iceberg-strewn bay to explore and kayak amongst massive ice sculptures and soaring cliffs.

Sail among the northernmost cluster of islands in the Canadian Arctic Archipelago, learning about the Inuit peoples who have hunted and fished here for thousands of years as well as the famous explorers who have sailed these waters such as Sir John Ross. You'll be constantly on the lookout for animals that call this region home, such as ringed seals, arctic foxes, musk oxen, walruses, polar bears and beluga and bowhead whales.

Meals included: breakfast, lunch, dinner

◇ DAYS 17-21

Exploring Ellesmere Island and Northern Greenland

Heading ever northward, make your way up the beautiful and remote east coast of Ellesmere Island. Cruise along scenic Smith Bay (a.k.a. Skog Inlet, named for Leif Skog, Lindblad's own renowned ice captain and world explorer) bordered by a steep wall of mountains, with a glacial ice tongue which pours down the mountains on either side. Be up on the bridge to search for a patch of "polar bear ice," the mixture of first-year and multi-year sea ice that is the preferred habitat of the ice bears. Your binoculars will seek out any small ivory-colored dot on an otherwise white ice surface. With luck, these small dots will be local polar bears exploring the ice and making their way across the landscape of the Arctic Archipelago.

After exploring to the edge of the ice, turn your attention eastward to the largest island in the world: Greenland. The shores of northern Greenland continue to challenge explorers and locals alike to carve out their daily lives among some of the most beautiful and harsh conditions. Kayak in sheltered coves, embark on hikes (when the coast is clear of polar bears) and visit local communities that

continue the traditional hunting practices.

Meals included: breakfast, lunch, dinner

◇ DAY 22

Ilulissat

Sail back into Qeqertarsuup Tunua, or Disko Bay, and enjoy an extraordinary cruise aboard local boats among towering icebergs of the UNESCO World Heritage-designated Ilulissat Icefjord. Visit the town of Ilulissat and hike into the Sermermiut Valley, once an Inuit settlement and now the home to a peaceful boardwalk overlooking the Icefjord. This evening, sail away south along the coast and spend time on the bridge with your naturalists and Bridge team, keeping watch for whales and glimpses of the Greenlandic Ice Sheet.

Meals included: breakfast, lunch, dinner

◇ DAY 23

Nuuk / Disembark Ship / Reykjavík, Iceland

Disembark in Nuuk and join the recommended group flight to Keflavík; transfers to the nearby hotel and luggage assistance will be provided. Upon arrival, enjoy an included dinner and overnight.

Meals included: dinner, lunch, breakfast

■ DAY 24

Reykjavík

After breakfast, transfer to the airport for flights home.

Meals included: breakfast

National Geographic Endurance

Guests	Cabins

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
