Voyage to the Great Bear Rainforest

Aboard *National Geographic Venture*, embark on an 11-day journey from Ketchikan to Seattle. Begin in the Great Bear Rainforest, the only place to find the elusive spirit bear, and discover pristine wilderness teeming with wildlife from orcas to golden eagles. Continue south through Johnstone Strait's dramatic waterways and explore British Columbia's picturesque Sunshine Coast with its sheltered kayaking bays. Conclude among Washington's San Juan Islands, where harbor seals and bald eagles thrive. Throughout this Pacific Northwest expedition, navigate glacier-cut fjords, soaring granite peaks, and moss-draped forests while experiencing remarkable ecological diversity.

- ★ Journey into pristine forests inaccessible by road and managed by First Nations people
- ★ Hike the San Juan Islands, and cruise nearby waters in British Columbia where orcas gather annually to hunt within the isles' inlets and bays
- ★ Kayak among massive smacks of jellyfish and witness the surprising undersea through video shot by our undersea specialist

Day by day

■ DAY 1

Ketchikan, Alaska / Embark Ship

Arrive in Ketchikan, the southernmost city in Alaska, spread at the base of forested slopes on Revillagigedo Island. Known as the "salmon capital of the world," it's famous for colorful buildings and abundant fishing boats and canneries. Embark *National Geographic Venture* in time for cocktails and an introduction of the vessel staff and crew.

Meals included: dinner

◇ DAY 2

Prince Rupert, British Columbia, Canada

Wake up in Prince Rupert, a scenic harbor town on British Columbia's rugged northwest coast. Get immersed in First Nations history at the Museum of Northern British Columbia, built in the style of a coastal longhouse. Breathe in the scent of cedar beams and peruse an impressive collection of ornate carvings, weavings, ceremonial objects and regalia. Visit the North Pacific Cannery Museum, a collection of cannery buildings located in pristine wilderness surroundings that highlight British Columbia's economic, cultural and natural development over the last century.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Lowe Inlet Provincial Marine Park / Cruising

Seek out pods of killer whales and foraging bears as you sail north through the narrow Grenville Channel between Pitt Island and the mainland, a dramatic navigational experience. Not only does the channel narrow to less than a quarter of a mile across, but a slight bend in the passage makes the waterway

seem to disappear into the hills ahead and behind the ship. Here, you'll explore the salmon run at Verney Falls in Lowe Inlet Provincial Marine Park by Zodiacs.

Meals included: breakfast, lunch, dinner

◇ DAYS 4-7

Exploring the Great Bear Rainforest and Rugged Coastline of British Columbia

Over the course of the next four days, you will cruise far into the fjords and deep valleys that carve into the Coast Range looking for black and grizzly bears. You will cruise the eastern coast of Princess Royal Island in search of the elusive spirit bear. It is believed that between 10 to 20 percent of bears in this region are born with the recessive gene that causes the white fur; fewer than 400 are estimated to exist.

British Columbia has one of the highest proportions of protected land of any jurisdiction in the world. Almost 15 percent of the land is protected, with a wide range of provincial parks, national parks and UNESCO World Heritage Sites. Alongside your veteran expedition team, go ashore and explore several remote locations where few people venture. Discover hidden gems by Zodiac and kayak, navigating the tidal narrows that lead to the backs of bays while scanning for bears along the rocky shoreline and meadows such as Gilttoyes Inlet.

Meals included: breakfast, lunch, dinner

◇ DAYS 8-9

Johnstone Strait / Southern British Columbia

Navigate the scenic Johnstone Strait, a dramatic waterway cutting through mountains and islands rich

with marine wildlife. Explore the myriad islets and rocky coasts, keeping an eye out for harbor seals, diverse seabirds, and birds of prey.

Discover British Columbia's Sunshine Coast, a mecca for kayakers and small yachts. Anchor in calm, sheltered waters to kayak in isolated bays that beckon for exploration. On land, hike through meadows and forest ecosystems.

Meals included: breakfast, lunch, dinner

◇ DAY 10

San Juan Islands, Washington

Discover the wild charm of the San Juan Islands, a captivating archipelago in northern Washington State. Paddle hidden coves by kayak, keeping an eye out for friendly harbor seals. Navigate dramatic shorelines aboard Zodiacs. Hike along rugged coastal trails where bald eagles soar overhead, while expert naturalists provide insight on the fascinating ecology and cultural history of this distinctive northwest wilderness.

Meals included: breakfast, lunch, dinner

■ DAY 11

Seattle / Disembark Ship

Disembark in Seattle and transfer to the airport for flights home.

Meals included: breakfast

The *National Geographic Venture* is a state-of-the-art expedition ship ideal for discovering remote locations in domestic waters.

Following the build of *National Geographic Quest* at Nichols Brothers shipyard, her sister ship the 100 guest *National Geographic Venture* floated into the bay on Whidbey Island, becoming the 4th ship in the Lindblad fleet built at this storied PNW shipyard. In the 1970s, Nichols Brothers built the twin ships *National Geographic Sea Bird* and *National Geographic Sea Lion*, which continue to sail the waters of the west coast of North America and Central America.

Venture, like much of the wildlife she follows, is migratory. She follows the seasons from Alaska, along the coast of British Columbia, up the Columbia & Snake Rivers, and along the Baja coast and into the Sea of Cortez. In each region, her design innovations were informed by 50+ years of expedition expertise to ensure extraordinary discoveries. Larger than her sibling twin ships, *National Geographic Sea Bird* and *National Geographic Sea Lion*, *National Geographic Venture* has the same shallow draft, enabling her to nimbly navigate the same inner reaches and provide the same intimate, 'insider' experiences of the charismatic regions we explore.

Like her sister ship *National Geographic Quest*, *National Geographic Venture* has dual boarding platforms, enabling our team to load two Zodiacs at once means guests get off ship quickly, to take advantage of wildlife sightings and maximize exploring time. Modern, cleaned-lined, with large expanses of glass to keep you connected to the extraordinary views, *National Geographic Venture* enables you to see, do and experience the best of her geographies.
