Iceland's Wild West Coast to East Greenland

Discover a region of epic fjords and pristine ice that is home to the Arctic's iconic creatures: polar bears, whales, and vast seabird colonies. Explore Iceland's wild Westfjords region and see where Erik the Red sailed from in the year A.D. 982, bound for Greenland. Ice permitting, venture into the world's largest fjord system and visit Greenland's most remote community. Conditions permitting in the fall, watch for the northern lights along Eastern Greenland and Iceland.

Highlights

- ★ Explore the largest national park in the world—Northeast Greenland National Park—and search for polar bears, musk oxen, beluga whales and more
- ★ Sail into Scoresbysund, ice permitting, the world's largest and longest fjord system and home to remote Inuit communities
- ★ Discover the wild west coast of Iceland with its incredible geology, quiet coves and majestic waterfalls
- ★ Hike to a remote waterfall, explore the fjords by kayak or enjoy a Zodiac cruise alongside stunning scenery in the Westfjords of Iceland

Day by day

■ DAY 1

Reykjavík, Iceland / Embark Ship

Arrive in Reykjavík, the world's northernmost capital, which lies just below the Arctic Circle. Transfer from the airport to the city and spend the day exploring at your own pace. Check in with the hospitality desk this afternoon before embarking the ship.

Meals included: dinner

◇ DAY 2

Westfjords of Iceland

Explore the beautiful and peaceful Westfjords region of Iceland. Hike to a remote waterfall, explore the remote fjords by kayak or take a Zodiac cruise alongside stunning scenery and wildlife. Enter Ísafjarðardjúp and capture stunning wildlife from the bow alongside your National Geographic Photography Expert.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Crossing the Denmark Strait

Sail west across the Denmark Strait, where the cold East Greenland current carries icebergs south. Scan the water for marine life and enjoy life on board. Take a yoga class, unwind with a massage in the wellness center and curl up next to the fireplace in the library. Visit the Bridge and learn about navigation. Relax in one of the twin infinity hot tubs or spend some time in the only igloo at sea. Learn about the area from your onboard historians, naturalists and photographers and enjoy exceptional dining options. As the days grow shorter in August, this is also a great time to keep watch for the northern lights as they start to reappear on clear nights.

Meals included: breakfast, lunch, dinner

◇ DAYS 4-9

Exploring Northeast Greenland National Park

Encompassing roughly 80 percent of the surface of Greenland, the Greenland ice sheet is the second-largest body of ice in the world. Weather and ice dictate the exact route, but plan to explore well north of Scoresbysund in the largest national park in the world: Northeast Greenland National Park. Set a course for Scoresbysund, the largest and longest fjord system on earth, with the village of Ittoqqortoormiit at its entrance. At the end of summer, the ice has retreated as far as it ever does, allowing you to explore the fjords, bays and nooks and crannies of this stunning coastline. With luck, you'll see iconic Arctic wildlife: polar bears, seals and whales.

Meals included: breakfast, lunch, dinner

◇ DAYS 10-11

Crossing the Denmark Strait

Return across the Denmark Strait, headed just south of the Arctic Circle, to the Westfjords, a remote area backed by majestic cliffs.

Meals included: breakfast, lunch, dinner

■ DAY 12

Reykjavik, Iceland / Disembark Ship

Disembark in Reykjavík and transfer to the airport for flights home.

Meals included: breakfast

National Geographic Endurance

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
