

Alaska Escape: LeConte Bay, Wrangell and Misty Fjords

Experience the pure power of primal wilderness on this compact, six-day expedition along the untamed southern regions of Southeast Alaska. Witness the electric blues of iceberg-dotted LeConte Bay and navigate narrow channels like Behm and Blake, as well as Walker Cove in Misty Fjords. Board Zodiacs to explore Prince of Wales Island and take kayaks and paddleboards into salmon-studded waters to trace the rugged, wildlife-rich shorelines of Kupreanof Island.

Highlights

- ★ Venture by Zodiac into a fjord laden with blue ice from the Leconte or Baird glacier
- ★ Sail Behm Canal into Misty Fjords National Monument in search of humpbacks, orcas, and sea lions
- ★ Roam small, uninhabited islands, hiking through the moss-draped cedar and Sitka spruce or tidepooling along the craggy shores
- ★ Scan the shorelines along Sumner Strait for a chance to spot black bears and bald eagles in search of salmon

Day by day

■ DAY 1

Ketchikan / Embark Ship

Arrive in Ketchikan, the southernmost city in Alaska, spread at the base of forested slopes on Revillagigedo Island. Known as the "salmon capital of the world," it's famous for colorful buildings and abundant fishing boats and canneries. Embark *National Geographic Venture* in time for cocktails and an introduction of the vessel staff and crew.

Arrival Time: Arrive by 3:00 p.m. local time.

Arrival City: Ketchikan, Alaska

Meals included: dinner

◇ DAY 2

Behm Canal / Misty Fjords National Monument

Wake up this morning to catch the sunrise over the stunning cliffs of Misty Fjords National Monument, rising more than 2,000 feet above the deep blue waters of the fjord. Watch wisps of cloud drift down the winding waterway and drape over green peaks as you cruise through the mists that give this extraordinary landscape its name. Set out by Zodiac and kayak to get close to the forested banks and the many dramatic waterfalls cascading down the cliffs.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Wrangell

This morning, arrive in the small town of Wrangell. The Tlingit and their ancestors have made this island their home for thousands of years. Take an optional jet boat journey up the Stikine River or explore the town, including a visit to Chief Shakes Tribal House and Petroglyph Beach, home to ancient rock carvings. This afternoon, cruise Eastern Passage and

Blake Channel, narrow waterways on the backside of Wrangell Island where other ships rarely venture.

On select departures, choose an optional day trip to Anan Creek Bear Observatory to witness black and brown bears feasting on salmon runs (additional \$390 per person). Speak with your expedition specialist for details.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Sumner Strait

Navigate the stunning Wrangell Narrows, an area inaccessible to larger ships, and then cruise into the Sumner Strait, keeping watch for orcas and humpback whales surfacing and sea otters gliding through the clear water around the ship. Explore the coast by kayak or Zodiac and go ashore to trace bear trails through forests intersected by crystalline salmon streams. Along the way, learn about the rainforest ecosystem from your naturalists. Fix your binoculars on the banks to search for Sitka black-tailed deer and moose as well as black bears, wolves and bald eagles that frequent the shoreline in search of plentiful salmon.

Meals included: breakfast, lunch, dinner

◇ DAY 5

LeConte Bay or Tracy Arm

Today, you'll explore either LeConte Bay or Tracy Arm. These areas feature some of the most active glaciers in Southeast Alaska. Icebergs regularly break off from glaciers, getting caught in shallow moraines and along the shorelines as they float out of the bay. Your experienced captain will evaluate the underwater moraine outside of LeConte Bay or Tracy Arm, where you'll set out by Zodiac to navigate among these surreal floating sculptures.

Take advantage of spectacular photographic opportunities, practicing tricks and tips from your certified photo instructor.

Meals included: breakfast, lunch, dinner

■ DAY 6

Juneau

Disembark in Juneau and transfer to the airport for flights home.

Departure Time: After 10:30 a.m. local time.

Departure City: Juneau, Alaska

Meals included: breakfast

**A U.S.-flagged vessel, she and her sister
National Geographic Sea Lion discover domestic waters**

Before they built the *National Geographic Venture* and *Quest*, U.S. shipbuilder Nichols Brothers built the twin ships *National Geographic Sea Lion* and *National Geographic Sea Bird*. Nimble, reliable, and intimately scaled, they both continue to sail the waters of the west coast of North America and Central America.

Sea Bird accommodates just 62 guests in 31 outside cabins. Her inviting public spaces foster a sense of shipboard life where everyone is integral to the adventure, engendering a rewarding sense of community and esprit du corps. National Geographic writer Andrew Evans called *Sea Lion* the “closest thing to Cousteau’s *Calypso*” he’s ever had the pleasure to be on.

With a shallow draft and small size, she can easily reach places inaccessible to larger ships. She can venture into fast-moving channels where whales come to feed, transit a series of locks in the Pacific Northwest, nose up to waterfalls in secluded coves, and sail into protected anchorages in small bays perfect for snorkeling and kayaking.

Self-Disinfecting Ships

ACT Clean Coat™ is a light-activated, self- disinfecting cleaning process that continuously breaks down viruses, bacteria, mold, and airborne allergens across all ship surfaces. Not only does this create a cleaner, healthier shipboard environment for guests and crew alike, but this non-toxic, chemical- free system also saves more than one million gallons of water each year in our cleaning procedures, and reduces our carbon footprint as well as the amount of plastic and waste in our supply chain.

Noteworthy Feature: The generous scale of the bow, enabling the entire expedition community to congregate with our naturalists, photo instructors, and experts from the Alaska Whale Foundation or the National Park Service, and share the excitement of watching whales or dramatic glacier calving events.
