Baja California Discovery: Exploring Mexico's Gulf of California

Journey deep into the Gulf of California to discover its hidden treasures. This encompassing expedition is the result of years of careful exploration by our veteran naturalists and features the best destinations this rich sea has to offer. It truly captures the exploratory spirit of our earliest days on the peninsula, more than 40 years ago, when Sven Lindblad first introduced intrepid travelers to its wild waters and desert shores.

Highlights

- ★ Immerse yourself in striking desert landscapes, pristine coastal waters, and extraordinary biodiversity
- ★ Embark on regular marine safaris in search of dolphins, sea lions, up to six species of whales, and—if we're lucky—whale sharks
- ★ Explore the lesser-visited Midriff Islands including Isla Rasa, where half a million nesting sea birds occupy a 150-acre island
- ★ Visit multiple UNESCO World Heritage sites and snorkel in the crystalline waters of protected marine reserves

Day by day

■ DAY 1

San José del Cabo / La Paz / Embark Ship

Arrive in San José del Cabo, where the Gulf of California meets the Pacific Ocean, by early afternoon. Transfer to La Paz and embark the *National Geographic Venture* in the evening in time for cocktails and staff introductions. You may opt for a [pre-voyage extension exploring culture and cuisine](#) in La Paz, Todos Santos and San José del Cabo.

Arrival Time: Arrive before 1:30 p.m. local time.

Arrival City: San José del Cabo, Mexico

Meals included: dinner

◇ DAYS 2-4

Exploring Southern Gulf Islands

We begin our journey among the natural beauty of the southern Gulf of California. These islands and surrounding waters are celebrated for their conservation stories, marine life and the many thrilling experiences on offer. Our plan is flexible in order to maximize our chances for amazing encounters. Some of the locations we may visit or enjoy by Zodiac include:

Cabo Pulmo National Marine Park

Set out to snorkel the pristine reefs of Cabo Pulmo National Marine Park, one of the most successful national marine parks in the world. Chat with locals about their advocacy to protect this unique place, including a cessation of fishing to protect the reef.

Isla Espíritu Santo

A national park as well as UNESCO World Heritage Site with volcanic rock formations, scenic beaches and coral reefs. This magical island offers excellent hiking opportunities and crystal-clear waters for

snorkeling. It's a popular destination for researchers monitoring sea turtles.

Los Islotes

Located at the northern tip of the UNESCO Biosphere Reserve, Los Islotes is largely inaccessible to people and home to a large colony of sea lions. Conditions permitting, we'll anchor off the rocky island where we don flippers, a mask and snorkel (which we provide) and swim with these curious inhabitants.

Isla San José

One of the larger islands in the Gulf of California, San José offers several landing possibilities depending on conditions and the whim of the moment. Photograph the ochre cliffs of the island's eastern shore, hike an enchanted, cactus-laden arroyo or visit the abandoned salt works to the west. Discover rare wildlife among desert islands.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-7

Exploring the Midriff Islands / Bahía Loreto Marine Park

The islands of the Midriff region in the northern Gulf of California are favorites among our naturalists for their remoteness as well as their exceptional wildlife and birdlife. With nature as our guide, we will actively explore these areas by Zodiac, kayak, paddleboard, snorkeling and hiking. Some of the locations we may visit or enjoy by Zodiac include:

Isla San Pedro Mártir

This 1,000-foot-high guano-covered island is home to the world's largest nesting colonies of blue-footed and brown boobies. The surrounding waters boast 14 species of marine mammals, including fin whales,

bryde's whales and a resident group of sperm whales.

Isla San Esteban

Featuring volcanic slopes and cliffs, Isla San Esteban is home to spiny-tailed iguana and chuckwallas, cohabitant lizards with fascinating evolutionary traits. As we hike the broad arroyo, keep an eye out for the spiny-tailed iguana feeding on flowers atop cardon cacti, while the chuckwalla dines on the leaves and fruits of low-lying plants.

Isla Rasa

This legendary, uninhabited island is less than 0.21 square miles wide and yet is crucial to the survival of two species of seabirds. 95% of the world's Heermann's gulls and elegant terns use the island as their nesting grounds, creating a cacophonous, avian spectacle seen nowhere else on earth.

Bahía Loreto Marine Park

One of Mexico's natural treasures, this protected area offers a variety of pristine landscapes and a plethora of marine life. Search for bottlenose and common dolphins, with the possibility of encountering fin whales, which researchers have recently concluded may be part of a resident population.

Meals included: breakfast, lunch, dinner

◇ DAY 8

Bahía de los Ángeles

Get active this morning with options to hike, kayak, swim, snorkel or beachcomb within the Bahía de los Ángeles Biosphere Reserve. Board Zodiacs to seek out this protected reserve's diverse marine population, including endangered species such as fin whales, California sea lions, and five species of sea turtles. Whale sharks have also historically been known to populate these waters. Later, enjoy a rare opportunity to see one of the strangest plants

on earth, the boojum tree. Sacred to indigenous people, and believed to have supernatural powers, this evolutionary oddity takes its name from a Lewis Carroll poem. Capture the experience with help from your Certified Photography Instructor.

Meals included: breakfast, lunch, dinner

◇ DAY 9

Santa Rosalía / Cruising

After breakfast, disembark in Santa Rosalía, established as a French copper mining town in 1884. The French influence remains in the architecture—including a steel church designed by Gustave Eiffel—and the mining facilities have been left intact, with old locomotives and machinery visible throughout. Engage with the city's culture and cuisine as you walk the streets, stopping in at a world-famous French bakery for a sweet or savory treat. Back on board, take in the desert landscapes and search for a variety of whales as we cruise to our next destination.

Meals included: breakfast, lunch, dinner

◇ DAY 10

Bahía Concepción

Awake in Bahía Concepción, one of the largest bays of the Baja California peninsula, with over 50 miles of beaches. Take your coffee to the deck to witness the colorful landscapes revealed by another gorgeous Baja California sunrise. This biodiversity hotspot is ripe for exploration. Board Zodiacs in search of whale sharks and other marine life, kayak through lush mangrove systems and snorkel in turquoise waters. On land, join an invigorating hike among towering cacti or stroll the pristine beaches and learn about the ecology from our naturalists.

Meals included: breakfast, lunch, dinner

■ DAY 11

Loreto / Disembark Ship

Disembark in Loreto after breakfast and transfer to Loreto airport for flights home.

Departure Time: After 11:00 a.m., local time

Departure City: Loreto, Mexico

Meals included: breakfast

The *National Geographic Venture* is a state-of-the-art expedition ship ideal for discovering remote locations in domestic waters.

Following the build of *National Geographic Quest* at Nichols Brothers shipyard, her sister ship the 100 guest *National Geographic Venture* floated into the bay on Whidbey Island, becoming the 4th ship in the Lindblad fleet built at this storied PNW shipyard. In the 1970s, Nichols Brothers built the twin ships *National Geographic Sea Bird* and *National Geographic Sea Lion*, which continue to sail the waters of the west coast of North America and Central America.

Venture, like much of the wildlife she follows, is migratory. She follows the seasons from Alaska, along the coast of British Columbia, up the Columbia & Snake Rivers, and along the Baja coast and into the Sea of Cortez. In each region, her design innovations were informed by 50+ years of expedition expertise to ensure extraordinary discoveries. Larger than her sibling twin ships, *National Geographic Sea Bird* and *National Geographic Sea Lion*, *National Geographic Venture* has the same shallow draft, enabling her to nimbly navigate the same inner reaches and provide the same intimate, 'insider' experiences of the charismatic regions we explore.

Like her sister ship *National Geographic Quest*, *National Geographic Venture* has dual boarding platforms, enabling our team to load two Zodiacs at once means guests get off ship quickly, to take advantage of wildlife sightings and maximize exploring time. Modern, cleaned-lined, with large expanses of glass to keep you connected to the extraordinary views, *National Geographic Venture* enables you to see, do and experience the best of her geographies.
