Alaska to Japan: Ring of Fire to Ainu Culture

Trace the Pacific’s “Ring of Fire” between Alaska’s volcanic Aleutian Islands and the rugged island of Hokkaido, Japan. Discover the wild, seldom-visited islands of the Bering Sea, encountering millions of seabirds as well as northern fur seals and bears in the Pribilof and Aleutian Islands. View the towering volcanic cones that frame Hokkaido—home to more than 51 volcanoes—and explore how these dramatic landscapes have shaped Ainu and Shinto traditions and centuries of Japanese history.

Highlights

- ★ Explore the dramatic Aleutian Islands, where volcanic cones rise from the sea and wildlife thrives—from pods of orcas and porpoises to otters and seals
- ★ Search for the sacred red-crowned crane on a visit to the wetlands of Kushiro on Hokkaido
- ★ Learn about the culture of Hokkaido's indigenous Ainu people on visits to a village and a living history museum
- ★ Experience the Pribilof Islands, remote seabird enclaves teeming with whiskered auklets, red-legged kittiwakes and horned and tufted puffins

Day by day

■ DAY 1

Sapporo, Japan

Arrive in Sapporo and transfer to your hotel.

◇ DAY 2

Sapporo / Otaru / Embark Ship

The capital of Hokkaido, Sapporo is known for its relaxed atmosphere compared to Japan's more bustling cities. Enjoy the city of Sapporo and the culinary delicacies of the region before embarking the ship in Otaru this afternoon.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Southern Hokkaido Island

Today the ship arrives at the southern tip of Hokkaido Island. Rapid modernization in the late 1800s transformed this region, creating a unique blend of contemporary development, traditional fishing villages, and historic castles and fortifications from earlier eras of Japanese history. Explore the preserved buildings and walls of these landmarks or simply soak in the natural beauty overlooking the Tsugaru Strait.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Aomori

On the northern coast of Japan's main island of Honshu is Aomori City. With the Hakkōda mountains in the distance, this bountiful countryside is known for its apple orchards, world-famous seafood, local treasures of Tsugaru lacquerware and painted kites. Explore the tranquil Seiryū-ji Temple with its impressive bronze statue of Dainichi Nyorai. Learn about Nebuta Matsuri, the summer festival with

colorful papier-mâché floats, and see the amazing artistry up close.

Meals included: breakfast, lunch, dinner

◇ DAY 5

Muroran

Dock at Muroran and choose to drive to Shikotsu-Tōya National Park, filled with mirror-like lakes and forest-covered hills set against the silhouette of the Mount Yōtei stratovolcano. Alternatively, drive to the lush town of Shiraoi to visit the newly opened National Ainu Museum and Park, an open-air museum where visitors can experience various elements of Ainu culture.

Meals included: breakfast, lunch, dinner

◇ DAY 6

Kushiro

Arrive on the northeastern shore of Hokkaido. With a deep connection to the sea, Kushiro is known for a variety of seafood, fresh from the sea. Experience the bustle of the local market, where the daily catch is on display. Explore the Kushiro City Museum and delve into the rich history of the city and the traditions of the Ainu people. Following your morning of exploration, enjoy a meal loved by locals: robata-yaki, or "fireside grilling." You will select your favorite seafood and grill it over the hot coals at your seat—a very special treat.

Meals included: breakfast, lunch, dinner

◇ DAYS 7-11

At Sea

As the ship sets a course for the Aleutian Islands, enjoy discussions with your naturalists. Join them on deck to identify the seabirds that follow the ship and the volcanic cones in the distance that

make up the “Ring of Fire.” Be on the lookout for unexpected visits from whales and other marine mammals. There is also an array of shipboard activities to enjoy: attend a photo workshop with your National Geographic photographer, treat yourself to a massage or a wellness class or cozy up in the library with a good book. As you make your way toward North America, you will gain a day crossing the International Date Line.

International Date Line note: This itinerary crosses the International Date Line, resulting in the repeat of one calendar day (July 19) as you sail from Japan to the Aleutian Islands.

Meals included: breakfast, lunch, dinner

◇ DAYS 12-15

Exploring the Aleutian Islands

With 69 islands, countless islets and tens of millions of seabirds, the Aleutians offer much to discover. Spend four days exploring these rugged and remote volcanic islands—some of which still harbor active volcanoes. Learn about the culture of the Aleuts, fishing and hunting people who have inhabited these islands for millennia. Observe marine mammals such as northern fur seals, Steller sea lions and a variety of whales, as well as prolific birdlife. Witness how the weather—wind, rain, fog and glorious sunshine—impacts all aspects of life in this spectacularly scenic region.

Meals included: breakfast, lunch, dinner

◇ DAY 16

Baby Islands / Dutch Harbor

The westernmost tip of the Alaska mainland gives way to a 1,100-mile-long string of islands that separate the Bering Sea from the northern Pacific: the Aleutian Islands. Explore this wildlife-rich archipelago in the Baby Islands, east of Unalaska. Here, dynamic tides offer the chance to look for sea otters and fur seals, as well as rare seabirds. Stand

on deck as the ship navigates Baby Pass and be on the lookout for the islands’ wildlife. Arrive at Dutch Harbor, site of a fierce World War II battle and now one of the world’s most important fishing ports.

Meals included: breakfast, lunch, dinner

◇ DAYS 17-19

Pribilof Islands / St. Paul and St. George Islands / At Sea

A naturalist’s paradise, the Pribilof Islands welcome three million seabirds and a million marine mammals each summer during the breeding season. Cruise beneath the cliffs of St. George, rocky outcrops that harbor one of the largest seabird colonies in the Northern Hemisphere. Watch for horned and tufted puffins, red-legged kittiwakes, crested auklets and rare Asian vagrant species seldom seen in North America. Go ashore on St. Paul, home to the majority of the Pribilofs’ more than half a million northern fur seals. After two days exploring these remote islands, strike off across the Bering Sea toward Nome, Alaska.

Meals included: breakfast, lunch, dinner

■ DAY 20

Nome, Alaska / Disembark Ship / Anchorage

Arrive in the remote city of Nome, on the coast of the Bering Sea. Enjoy breakfast on board and disembark to explore the town prior to your flight to Anchorage. Lunch is included in town before boarding the flight. In Anchorage, transfer to the airport for flights home.

Meals included: breakfast, lunch

National Geographic Resolution

Guests 138	Cabins 76
----------------------	---------------------

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. *Resolution's* most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside— with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
