largest waterfall, caused by powerful currents and glaciers. Listen to talks by experts, relax with a book in the lounge or the observation deck and keep an eye out for wildlife as the ship sails across the continental shelf.

Meals included: breakfast, lunch, dinner

◊ DAY 6

Exploring East Greenland

The coast of the world's largest island is etched with thousands of fjords, some of which reach back to the Greenlandic ice sheet. Spend the day exploring these stunning inlets of the eastern coast as the staff uses the ship's underwater cameras and Remotely Operated Vehicle (ROV) to help you discover marine life and fascinating underwater geology. Ice permitting, sail deep into Skjoldungen fjord and soak in your arrival to Greenland on a Zodiac cruise or in a kayak among the icebergs.

Meals included: breakfast, lunch, dinner

◊ DAY 7

Prins Christian Sund / Tasermiut Fjord

Sail into Prins Christian Sund, which cuts into the southern tip of Greenland, passing between soaring pinnacles and glaciers, allowing the ship to sail through the sheltered waters of this dramatic landscape. As you round the southern coast of Greenland, enter Tasermiut Fjord, known as Arctic Patagonia, for its sheer granite rock faces and dramatic valley filled with glaciers or their moraines. Spend time exploring by foot, kayak or zodiac along its shores.

Meals included: breakfast, lunch, dinner

◊ DAYS 8-9

Qaqortoq and Tunulliarflik Fjord

Qaqortoq and Tunulliarfik Fjord provide two days of insight, culture and local interactions. Walk through the ruins of Bratthlid, Erik the Red's farm, visiting replicas of the church and the family's longhouse. Explore the same shores from which their son, Leif Eriksson, launched the first voyages to North America—500 years before Columbus. Visit the unofficial capital of southern Greenland at Qaqortoq, with just over 3,200 residents. The colonial influence is visible throughout the town, with houses painted in primary colors and architecture dating back to the 1700s. Stroll through the town square and visit the museum, where Greenlandic kayaks, hunting equipment and local art and handicrafts are on display. Finally, walk through the walls of Hvalsey church, located in the fjords behind Qaqortoq, the best-preserved Norse ruins in all of Greenland and a UNESCO World Heritage site.

Meals included: breakfast, lunch, dinner

◊ DAY 10

Nuuk

Perched on the seaside in the shadow of ice-capped Sermitsiaq Mountain, Nuuk is the world's smallest capital city by population, with some 19,000 inhabitants, experiencing tremendous cultural and economic growth. Watch for harp seals as you enter the harbor and take a walking tour with local residents to learn how the community has changed over the generations. At the National Museum, examine the extraordinary 15th-century Qilakitsoq mummies found near Uummannaq—a discovery that was featured in a *National Geographic* magazine cover story in 1985. The Arctic ice preserved these mummies so well that researchers have been able to study their tattoos, their medical conditions and even what they ate.

Meals included: breakfast, lunch, dinner

◊ DAY 11

Eternity Fjord

In the early morning, the ship enters Eternity Fjord (Kangerlussuatsiaq Fjord), which winds picturesquely past steep mountains and stunning tidewater glaciers. In the far reaches of the fjord, take a Zodiac cruise along the face of one of the many glaciers or hike over glacial moraines to a waterfall. In the afternoon, continue exploring this varied landscape and fjord system either by foot, kayak, or zodiac and hear from experts about the physical changes to the landscape year over year.

Meals included: breakfast, lunch, dinner

◊ DAY 12

Sisimiut

Upon arrival to Sisimiut, a former whaling port, enjoy your choice of guided walks through the sights and sounds of the village, including a meeting with the caretakers of the Greenlandic Dog Project, or hiking part of the Arctic Circle trail. In your free time, enjoy a local food tasting, visit the open-air museum or explore the local artisan workshops.

Meals included: breakfast, lunch, dinner

◊ DAYS 13-14

Ilulissat and Disko Bay

Sail into Qeqertarsuup Tunua, also known as Disko Bay, and be welcomed by floating icebergs calved off the world's most active glacier, Sermeq Kujalleq. Enjoy an extraordinary cruise aboard local boats among towering icebergs of the UNESCO World Heritage-designated Ilulissat Icefjord. Visit the town of Ilulissat and hike into the Sermermiut Valley, once an Inuit settlement and now home to a peaceful boardwalk overlooking the Icefjord. As the ship make its way north through Disko Bay, if ice conditions permit, you'll follow the inside passage of Disko Island and trace the shores of the Nuussuaq Peninsula as you keep watch for a glimpse of the Greenlandic Ice Sheet.

Meals included: breakfast, lunch, dinner

◊ DAY 15

Uummannaq / Qilakitsoq

The village of Uummannaq sits on a tiny, yet dramatic island in the Uummannaq Fjord, dominated by a massive peak rising at its center. Visit the town's excellent community museum to see traditional clothing and tools along with scenes of everyday life on these islands and enjoy a stroll through the streets of this northern outpost. In the afternoon, with special village permissions, cross the fjord to the site of Qilakitsoq, an important archaeological site for Greenlanders, where eight mummies, dating back to 1475, were discovered in 1972. These eight individuals, all extraordinarily well-preserved women and children, were Thule people, the ancestors of the modern Inuit and was featured on the cover of the February 1985 issue of *National Geographic* magazine. For the adventurous hikers, make your own respectful journey up to the final resting place of these ancestors.

Meals included: breakfast, lunch, dinner

◊ DAY 16

Exploring Greenland's Fjords

Sail along Greenland's fjords and look for Arctic foxes, whales and—with luck—caribou. Paddle a kayak along the steep sides of the fjord or ride a Zodiac to see the glacially carved landscape up close.

Meals included: breakfast, lunch, dinner

◊ DAY 17

Nuuk, Greenland

Enjoy a scenic sailing out of the Nuuk fjord and into the open water of the Davis Strait as you navigate north along the coastline. Guests not continuing on to the next voyage will disembark.

Meals included: breakfast, lunch, dinner

◊ DAY 18

Greenland's West Coast and Sisimiut

The massive ice sheet that blankets much of Greenland feeds dozens of fjords and glaciers on the dramatic western coast. Be on the lookout for humpback and minke whales as you trace these rugged shores. During a stop at the former whaling port of Sisimiut, visit the local museum and stroll among the town's 18th-century wooden buildings.

Meals included: breakfast, lunch, dinner

◊ DAY 19

Disko Bay / Ilulissat

Sail into Disko Bay to explore the World Heritage-listed Ilulissat Icefjord, a tongue of the Greenland ice sheet that extends to the bay. Here, the Sermeq Kujalleq glacier calves enormous amounts of ice at an astonishing rate, releasing icebergs that can soar up to 300 feet. A cruise among these gigantic sculptures of ice is a highlight of your voyage. Explore the remains of the historic fishing village of Sermermiut and take in spectacular views of the ice-laden mouth of the fjord.

Meals included: breakfast, lunch, dinner

◊ DAYS 20-22

Exploring East Baffin Island, Nunavut, Canada

Begin your exploration of the Canadian High Arctic along the beautiful bays and inlets along Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage. Days here are spent searching for ringed seals, arctic foxes, walruses and polar bears, as well as beluga

and bowhead whales. Visit Devon Island and take a walk with the ship's archaeologist to learn about the Thule people—ancestors of the modern Inuit—that once inhabited this region.

Meals included: breakfast, lunch, dinner

◊ DAYS 23-32

Exploring the Northwest Passage

Your ice-strengthened ship, *National Geographic Resolution*, navigates the Northwest Passage following nature's path—dependent on ice and weather conditions. Taking cues from nature, you'll follow wildlife, stop for hikes on the tundra or drop anchor in a beautiful fjord or an icy bay to explore and kayak beneath massive ice sculptures and soaring cliffs.

Along the way, explore ice-studded channels and glacier-carved islands that stretch for hundreds of miles—a stunning display of raw geology; sail past the northernmost part of mainland North America in the Bellot Strait, one of the narrowest and most infamous of the passage; and cross the top of the Northwest Territory of Canada to search for ringed seals, arctic foxes, musk oxen, walruses and polar bears, as well as beluga and bowhead whales.

History and culture are also on the itinerary. Learn about the Inuit peoples who have hunted and fished here for thousands of years. And hear heroic stories of the early explorers: Roald Amundsen, John Ross, William Edward Parry and James Clark Ross, among others.

Meals included: breakfast, lunch, dinner

◊ DAY 33

At Sea

Indulge in *National Geographic Resolution's* amenities as you continue along the shores of the Canadian High Arctic. Soak in the ship's infinity-style outdoor hot tubs, take in panoramic views from

the rooftop observation deck and enjoy talks from onboard experts. Take time to reflect on the amazing wildlife and geology that have highlighted your journey so far.

Meals included: breakfast, lunch, dinner

◊ DAY 34

Herschel Island, Yukon Territory

Once a thriving whaling village off the coast of the Yukon Territory, Herschel Island is now classified as a Natural Environmental Park. The island protects the wildlife alongside the heritage of the Inuvialuit people and the whaling industry. As you wander through Herschel's historic dwellings, keep an eye out for the wildlife residents, which include bears, musk oxen and arctic foxes. The area is also home to the largest colony of black guillemots in the Western Arctic.

Meals included: breakfast, lunch, dinner

◊ DAYS 35-37

At Sea

As you continue to sail westward along the northern coast of Alaska, reflect on your adventures while scanning the water for marine life and enjoying life on board. Take a yoga class, unwind with a massage in the wellness center and curl up next to the fireplace in the library. Share images with your National Geographic-Lindblad Expeditions certified photography instructor and marvel at footage captured by the ship's underwater camera.

Meals included: breakfast, lunch, dinner

◊ DAY 38

Nome, Alaska, U.S.

Arrive in the remote city of Nome, Alaska, on the coast of the Bering Sea. Disembark to explore the town prior to heading back on ship. Guests not continuing on to the next voyage will disembark.

Meals included: breakfast, lunch, dinner

◊ DAYS 39-40

Pribilof Islands / St. Paul and St. George Islands

A naturalist's paradise, the Pribilof Islands welcome three million seabirds and a million marine mammals each summer during the breeding season. Cruise beneath the cliffs of St. George, rocky outcrops that harbor one of the largest seabird colonies in the Northern Hemisphere. Watch for horned and tufted puffins, red-legged kittiwakes, crested auklets and rare Asian vagrant species seldom seen in North America. Go ashore on St. Paul, home to the majority of the Pribilofs' more than half a million northern fur seals.

Meals included: breakfast, lunch, dinner

◊ DAY 41

Baby Islands / Dutch Harbor

The westernmost tip of the Alaska mainland gives way to a 1,100-mile-long string of islands that separate the Bering Sea from the northern Pacific: the Aleutian Islands. Begin your exploration of this wildlife-rich archipelago at the Baby Islands, east of Unalaska. Here, dynamic tides offer the chance to look for sea otters and fur seals, as well as rare seabirds. Stand on deck as the ship navigates Baby Pass and be on the lookout for the islands' wildlife. Arrive at Dutch Harbor, site of a fierce World War II battle and now one of the world's most important fishing ports.

Meals included: breakfast, lunch, dinner

◊ DAYS 42-45

Exploring the Aleutian Islands

With 69 islands, countless islets and tens of millions of seabirds, the Aleutians offer much to discover.

Spend four days exploring these rugged and remote volcanic islands—some of which still harbor active volcanoes. Learn about the culture of the Aleuts, a fishing and hunting people who have inhabited these islands for millennia. Observe marine mammals such as northern fur seals, Steller sea lions and a variety of whales, as well as prolific birdlife. Witness how the weather—wind, rain, fog and glorious sunshine—impacts all aspects of life in this spectacularly scenic region.

Meals included: breakfast, lunch, dinner

◊ DAYS 46-49

At Sea

As the ship sets a course for Japan, enjoy discussions with your naturalists as they set the stage for your time exploring the northern shores of Hokkaido. Join them on deck to identify the seabirds that follow us and the volcanic cones in the distance that make up the "Ring of Fire." Be on the lookout for unexpected visits from whales and other marine mammals. There is also an array of shipboard activities to enjoy: attend a photo workshop with your National Geographic photographer, treat yourself to a massage or a wellness class or cozy up in the library with a good book. As you make your way to Asia, you will lose a day crossing the International Date Line.

Meals included: breakfast, lunch, dinner

◊ DAY 50

Kushiro, Japan

Arrive on the northeastern shore of Hokkaido, your first stop in Japan. With a deep connection to the sea, Kushiro is known for a variety of seafood, fresh from the sea. Experience the bustle of the local market where the daily catch is on display. Explore the Kushiro City Museum and delve into the rich history of the city and the traditions of the Ainu people. warfare, bombings of World War II and the powerful earthquake of 2011. Continue on to Zuihoden, the mausoleum of the Date clan, whose spectacular grounds and intricate design pay tribute to the powerful Masamune and his descendants. Just outside of the city, explore the secluded bay on the shores of Matsushima. Known as one of Japan's three most scenic views, this gorgeous bay is dotted with pine-clad islets.

Meals included: breakfast, lunch, dinner

◊ DAY 54

Oarai / Mito City

The sister ship to *National Geographic Endurance*,
she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. *Resolution*'s most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside— with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow® is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
