See the region's famous azulejo tiles and take in the views from the Ponte Dom Luis bridge, an iron masterpiece completed in 1886. Choose from options within the city or in the countryside to gain a better understanding of the layers of Portuguese history and culture before taking in the city at your own pace.

Associated with King Arthur and smugglers who inspired Gilbert and Sullivan's *The Pirates of Penzance*, its real-life historic sites include remnants of early Christian and Bronze Age settlements and St. Michael's Mount, a centuries-old island castle still inhabited today. Cornwall shares cultural, natural and industrial heritage with Brittany and is enjoying a cultural renaissance, drawing artists inspired by its coastlines, harbors and quiet garden retreats. You'll experience the greatest of this rich area with hikes along its picturesque coast, cultural immersion experiences such as tastings of regional cuisine and musical performances, as well as an exploration of the Cornish Mining Landscape, a UNESCO World Heritage Site.

National Geographic Endurance

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
