- ★ Capture your picture of the most photographed mountain in Iceland, Kirkjufell, alongside a certified photo instructor or National Geographic Photography Expert

Day by day

■ DAY 1

Reykjavík, Iceland / Embark Ship

Arrive in Reykjavík, the world's northernmost capital, which lies just below the Arctic Circle. Transfer from the airport to the city and spend the day exploring at your own pace. Check in with the hospitality desk in the afternoon before embarking the ship.

Meals included: dinner

◇ DAY 2

Djúpavík

Enjoy a leisurely morning at sea learning about Iceland and its incredible biodiversity. Join your expedition staff on the bow of the ship as you keep watch for the close to 20 whale species that call the Westfjords home.

Spend the afternoon on the remote eastern side of the Westfjords, an area difficult to access but boasting spectacular beauty and rich history. The tiny town of Djúpavík held its place on the map because of the golden age of herring. During its heyday in the 1930s, its herring plant was the largest concrete structure in Iceland. The plant closed in 1954 but remains as a small museum and a memory of the rich productivity of the herring industry in Iceland. Visit the museum and learn about the significance of this resource to all of Iceland in the 20th century.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Skagafjörður

Skagafjörður is the gateway to north Iceland, known for its glacial rivers, Icelandic horses and saga history. Take a float trip on the Jökulsá river or visit a historic rural turf farm to understand rural life in

Iceland. Finally, learn about Grettir the Strong and the saga named after him by exploring Drangey Island and spotting the multitudes of birds that call the island home like kittiwakes, shearwaters and possibly even ravens and gyrfalcons.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Ísafjörður / Vigur

Explore the beautiful and peaceful Westfjords region of Iceland. Enter Ísafjarðardjúp and land at Vigur Island to visit an eider farm and learn about the down cleaning process as well as their prolific bird colonies. Alongside your expedition team, enjoy expedition activities for the remainder of the day, keeping a watchful eye for marine life that calls these fjords home, or enjoying other options such as zodiac cruising, hiking or kayaking (conditions permitting).

Meals included: breakfast, lunch, dinner

◇ DAY 5

Grundarfjörður

Serving as the center of trade on the Snæfellsnes Peninsula since the 15th century, Grundarfjörður is now best known for its Kirkjufell Mountain and picturesque waterfall. Alongside the National Geographic Photography Expert, capture your own images amongst this dynamic landscape and the weather swirling around the Peninsula. Alternatively, hike through a local lava field or explore the town's Saga Center.

Meals included: breakfast, lunch, dinner

■ DAY 6

Reykjavík / Disembark Ship

Disembark in Reykjavík and transfer to the airport for

flights home.

Meals included: breakfast

Built to handle deep swells and towering waves, the *National Geographic Explorer* lends herself to globe-spanning travel and a dedication to curiosity and wonder.

Originally constructed for service along Norway's coast as part of the famed Hurtigruten, or Coastal Express, she ferried passengers among the fjords of this iconic coast in conditions that could deteriorate into heavy seas in a matter of minutes. She had to be able to handle deep swells and towering waves—and have a high degree of maneuverability. Those traits, and an ideal size, made her a natural choice for addition to the Lindblad fleet.

The plans to completely rebuild her drew on 50 years of pioneering expedition history and expertise. *National Geographic Explorer* was equipped with an ice-strengthened hull and advanced navigation equipment for polar expeditions; a roster of tools for exploration; and a well-appointed interior with vast expanses of glass for an unprecedented connection to the environment. Her interior and exterior design embodied the Lindblad expedition ethos—the privilege of wildness and the luxury of comfort.

For many guests she remains their paradigm of an expedition ship. She is devoted to exploration—from her Welcoming Bridge, and the Chart Room below it where you can tuck in to warm up with a hot chocolate, to her high-perched Observation deck with its aqueous light and compelling 24/7 views. Even the art on the walls— from the Hurley prints of Shackleton’s expedition to the stunning National Geographic photos— tells an uber- narrative of globe-spanning travel and a dedication to curiosity and wonder.

National Geographic Explorer is a state-of-the-art expedition ship. She is a fully stabilized, ice-class vessel, with an ice-reinforced hull, enabling her to navigate polar passages while providing exceptional comfort.
